

BaseComponent

```
classDiagram
    class BaseComponent
    class RangeFinder
    RangeFinder --|> BaseComponent
```

A UML class diagram illustrating inheritance. The 'BaseComponent' class is represented by a white rectangle with a black border at the top. The 'RangeFinder' class is represented by a gray rectangle with a black border at the bottom. A solid blue arrow points vertically from the top center of the 'RangeFinder' box to the bottom center of the 'BaseComponent' box, indicating that 'RangeFinder' inherits from 'BaseComponent'.

RangeFinder
